who is careful to protect himself in money matters, is careless about health—his most valuable asset.

For many, coffee drinking silently undermines health. because each cup contains about 21/2 grains of the cumulative, harmful drug, caffeine.

Five to six grains of caffeine will kill a rabbit or a cat, and repeated daily will cripple a man.

How cripple a man? The caffeine, little by little, causes hardening of the arteries and premature old age, showing more in some than in others.

Some of the symptoms of caffein poisoning are headache, nervousness, biliousness, heart flutter, sleepless ness at night, and "fag" after coffee's reaction in the daytime.

The way to avoid all coffee troubles is to leave coffee alone and use

PRICE WARNING

The United States food administration, says Willet & Gray's Sugar Journal, sent the following to all Louisiana sugar producers on November 3: "Under powers conferred by section 5, food control act, I have determined McBryde Sugar Co., Ltd. 8 814 that any sale of 1917 washed plantation, clarified, seconds, thirds or open kettle sugars at a price in excess of \$7.75 per 100 pounds less 2 per cent, f.o.b. New Orleans, or raw sugar in excess of \$6.35 per 100 pounds f.o.b. New Orleans will give manufacturer an unjust, unreasonable and unfair profit. Any sale made after November 2 at greater price will be cause for revocation of license and subject you to pen- Walluku Sugar Co. 25, alties of the act."

In explanation of telegram to Louidana planters of November 3, 1917, regarding the position of the food administration on Louisiana sugars, the administration on November 5, 1917, issued Announcement No. 425, as fol

Since the meeting with the Louisiana committee in Washington some time ago, the government has not objected to sales of these plantation sugars being made at prices equivalent to the price of granulated in the inter-island S. N. Co.... North Atlantic * states. It has been found, however, on account of the scarcity of sugar, that the practise of selling these plantation sugars on such an abnormal basis is demoralizing the situation which the government is so earnestly trying to control in the interest of the consuming public, and the sugar produced in Louisiana instead of going to relieve the acute situation in the North Atlantic states and making sugar available for the average consumer, is going very large-

The food administration will not insist on any modification of contracts actually entered into prior to November 2, and all sellers are hereby authorized to complete deliveries either in the eastern or western territory on the basis of contracted sales price, but no new business should be taken in any territory at over 7.25c for these sugars. Any contract made on November 3rd or thereafter shall be made in accordance with this determination of the food administration.

This, it is hoped, will clear up the Louisiana situation definitely. Sales direct from the producer to the buyer should be on this basis. In case the sugar is purchased by a dealer or jobber at 7.25c New Orleans basis, his selling price to manufacturers or retailers shall not exceed the base price plus the usual freight added to destination, plus the profit charged by sugar jobbers in the territory in which sold, in no case to exceed 25 cents per 100 pounds.

The past week has been a most unfortunate one for the Louisiana sugar Sugar producers, a freeze of considerable severity occurring Wednesday morning throughout all except the most Henry Waterhouse Trust Co. southerly portions of the cane belt and the thermometer going down as low as 26 over a considerable area. Windrowing of cane was immediately undertaken on practically all plantations and mill work delayed thereby for a

The wear of years impairs the action of the bowels. As people grow older they restrict their activity, neglect to take sufficient exercise, and indulge a natural disposition to take things easy. The digestive organs become more sensitive to the demands made upon them and rebel more quickly.

made upon them and rebel more quickly.

It is of special importance to the health of elderly people that the bowels be kept normally active. A mild, yet effective, remedy for constipation, and one that is especially suited to the needs of old folks, women and children, is the combination of simple laxative herbs with pepsin sold in drug stores under the name of Dr. Caldwell's Syrup Pepsin. It costs only fifty cents a bottle, and should be in every family medicine chest. A trial bottle, free of charge, can be obtained by writing to Dr. W. B.
